

Adarsha Shetty

Software Engineer | Test Automation | Java | CI/CD

+91 8762485336 adarsha.shetty.1989@gmail.com https://www.linkedin.com/in/adarsha-shetty
Bengaluru, Karnataka, India

SUMMARY

Experienced Software Engineer with 14 years of expertise in designing and automating test cases, proficient in Java, JavaScript, and Ruby, with growing expertise in leveraging AI-driven tools to accelerate automation frameworks and streamline test failure analysis. Known for a strong foundation in test automation and teamwork, I specialize in building reliable, scalable test automation frameworks that drive impactful, efficiency-focused results.

EXPERIENCE

Lead - Software Development Engineer in Test

Zeta

05/2025 - Present Bangalore, India

- Led a team of 5 SDETs to deliver quality engineering for a large-scale banking platform, driving test strategy across critical financial workflows.
- Drove automation coverage for backlog APIs from 0% to 100%, reducing critical defects by 80% during release cycles.
- Implemented AI-driven practices to enhance automation speed by 60%, while integrating MCP tools for both API and UI web automation.
- Established a rotating on-call framework enhanced with AI-driven test failure analysis, reducing the debug-to-fix cycle by 20% while ensuring consistent accountability and coverage across the team.

Staff Software Development Engineer in Test

Hackerrank

06/2015 - 04/2025 Bengaluru, Karnataka, India

- Elevated product quality by implementing well-known testing strategies, reducing critical defects by 65% (from 120 to 42 monthly)
- Achieved a 400% reduction in testing time by spearheading test automation initiatives, cutting execution time from 8 hours to 2 hours for 2,300+ test cases

Senior Software Development Engineer in Test

Hackerrank

01/2020 - 07/2022 Bengaluru, Karnataka, India

- Streamlined execution of 2,300+ UI scenarios through cloud-based virtual displays, achieving 90% faster deployments (from 45 to 4 minutes) and reducing infrastructure costs by 45% while maintaining 99.9% test environment reliability

Software Development Engineer in Test

Hackerrank

06/2015 - 01/2020 Bengaluru, Karnataka, India

- Performed efficient test automation by developing UI test automation framework with TestNG and Selenium, reducing test execution time by 70% (from 5 hours to 1.5 hours) and automating 150+ critical test cases with 98% reliability

QA Automation Engineer

Sapient Global Markets

03/2012 - 06/2015 Bengaluru, Karnataka, India

A marketing and consulting firm specializing in technology and analytics.

- Improved testing efficiency and proactively mitigated risks throughout the testing process by designing test scenarios, cases, and scripts
- Developed a test automation framework reducing manual testing time by 60% at Sapient Global Markets

KEY ACHIEVEMENTS

Implemented AI-driven practices to enhance end-to-end automation speed by 60%, while integrating MCP tools for both API and UI web automation.

Achieved a 400% reduction in UI automation testing time by optimizing the CI setup, significantly enhancing testing efficiency and deployment speed.

Scaled up automation testing to 2300 scenarios on in-house cloud-based setup

EDUCATION

Bachelor of Engineering (B.E.)

PES Institute Of Technology

08/2007 - 05/2011 Bangalore, India

SKILLS

Problem Solving

Data Structures

Web UI and API Test Automation

CI/CD

Agentic AI

Gen AI

PROGRAMMING LANGUAGES

Java

Advanced

Groovy

Intermediate

Javascript

Intermediate

TOOLS AND TECHNOLOGIES

Jenkins, Git, Selenium, Playwright, Docker, Kubernetes, AWS, Terraform, MCP, AI Agents

AWARDS AND RECOGNITIONS

Spot Award 2024

Reduced UI automation testing time by 400% by optimizing CI setup, boosting testing efficiency and deployment speed.

Manager Capability Program

Applied Manager Capability Program training to strengthen coaching and performance management as an SDET team lead.
